

## Plan of the Day for Sunday 9 June

Submitted by wpetersen on Sun, 06/09/2013 - 09:51

Date:

Sunday, June 9, 2013 - 09:45

Discussion:

Scattered rain and showers around today so we will operate through the day and tonight. Will need to take some time today to grease NPOL pedestal again. Instruments all functioning well.

Expecting dry on Monday and part of Tuesday hence DOWN DAY BEGINNING AT 0700 CDT MONDAY - NOON CDT, TUESDAY. We will play Tuesday a bit by ear based on forecast tomorrow morning. So, WEATHER BRIEFING STILL A GO FOR MONDAY AM. Potential severe event with MCS on Tuesday night. WAP
